

Company overview

i3.NGENUITY LLC is a veteran-owned **AI company built for human services**. We specialize in three domains where the stakes are highest and the paperwork is heaviest: **human trafficking response, veteran homelessness, and homelessness services**. Our AI platform runs intake, case notes, risk monitoring, compliance reporting, training, and outcome analytics, built around each domain's workflows, regulations, and funding streams, with a person accountable for every decision.

AI that inspires

Frees caseworkers from paperwork to be present with clients

AI that innovates

One platform from intake to funder report

AI that drives impact

Real-time outcome analytics funders can trust

Core competencies

- **AI Platform & Analytics:** AI intake screening, case-note drafting, predictive risk monitoring, outcome dashboards, automated funder reports
- **Case Management as a Service (CMaaS):** the AI platform delivered three ways: technology & tools, managed operations, or surge response deployed within days
- **AI for Veteran Homelessness:** HUD-VASH, SSVF, GPD; eligibility document prep, VA coordination, stability monitoring
- **AI for Human Trafficking Response:** trauma-informed screening support, confidentiality-first records, T visa and HHS certification packet prep
- **AI for Housing Stability and Homelessness Services:** Coordinated Entry, HMIS data quality, CoC APR and ESG CAPER reporting
- **AI-delivered training & technical assistance:** on-demand TA, staff training, compliance and QI consulting, built-in impact measurement

Differentiators

- **Domain-specific AI:** built for human services rules, confidentiality, and funder reporting that general AI tools miss
- **AI-native, not AI-added:** workflows designed around AI from day one, with human review of every AI output
- **Responsible AI:** governance aligned with the NIST AI Risk Management Framework; no automated eligibility or service decisions; client data never used to train public models
- **Compliance built in:** HUD-VASH, SSVF, GPD, OTIP, HMIS, VOCA, VAWA
- **Veteran-led,** multilingual, trauma-informed, veteran-competent teams
